

DUŠAN PUZIGAĆA

FRONT-END WEB DEVELOPER

PROFILE

After graduation in Environmental Engineering at Faculty of Technical Sciences, University of Novi Sad, I worked as a Laboratory Technician at the same faculty for two and a half years. Later I have decided to switch my carrier path and become Front-End Web Developer. I don't have any previous working experience but I am looking for an opportunity to work, improve and expand my knowledge in field of Web development.

SKILLS

- HTML5
- CSS3
- SASS
- Bootstrap
- JavaScript
- React JS
- Git/GitHub

LATEST PROJECTS

REACT APPS

[Fake Store](#)

Simple Web Shop that allows user to search and filter products by category, add them to cart and log in as admin to add, remove or modify products.

[Weather App](#)

Weather loads automatically based on user location if location access is allowed. If access is denied, user will be asked to search manually. Background image changes dynamically on every search, displaying random picture of searched location.

[Password Generator](#)

User can choose password length and optionally include capital letters, numbers or symbols.

[Basic CRUD](#)

Simple CRUD app with list of cars.

STATIC PAGES

[Fitness Trainer](#)

Personal Fitness Trainer. Built with HTML, Bootstrap, SASS and JS.

[The Moon](#)

Single page website made with HTML, SASS and a little bit of JS. Free template called Moon that I copied for practice.

EDUCATION

[WEBSITE WORKSHOP](#)

React Front-End Course
2021-2021

FACULTY OF TECHNICAL SCIENCES
