PROFILE

After graduation in Environmental Engineering at Faculty of Technical Sciences, University of Novi Sad, I worked as a Laboratory Technician at the same faculty for two and a half years. Later I have decided to switch my carrier path and become Front-End Web Developer. I don't have any previous working experience but I am looking for an opportunity to work, improve and expand my knowledge in field of Web development.

SKILLS

- HTML5
- CSS3
- SASS
- Bootstrap
- JavaScript
- React JS
- Git/GitHub

EDUCATION

WEBSITE WORKSHOP

React Front-End Course

2021-2021

FACULTY OF TECHNICAL SCIENCES

Environmental Engineering

2014 - 2020

PROJECTS

REACT APPS

Fake Store

Simple Web Shop that allows user to search and filter products by category, add them to cart and log in as admin to add, remove or modify products.

Weather App

Weather loads automatically based on user location if location access is allowed. If access is denied, user will be asked to search manually. Background image changes dynamically on every search, displaying random picture of searched location.

Password Generator

User can choose password length and optionally include capital letters, numbers or symbols.

Basic CRUD

Simple CRUD app with list of cars.

STATIC PAGES

The Moon

Single page website made with HTML, SASS and a little bit of JS. Free template called Moon that I copied for practice.

Spatial

Single page website made with HTML and CSS.
